

# Impact Story from HSC Mozambique

## LOICE'S STORY

Lucia Vieira,, known as Loice, participated in the HSC Training in January 2023 and now she is being a blessing in northern Mozambique – Cabo Delgado, a region with a Muslim Predominance.

She formed a team of volunteers, and started a Ministry called Casa de Solução (**Solution House**), where they began working on supplying the basic needs to children. She started with about 150 Children in 2023 due to the effects of Cyclone Chido which turned into a disaster for many families, negatively affecting the lives of many children, but now she has 1,300 children.

The ministry activities include: Therapeutic Games and Psycho social Support. Food supply – helping to combat malnutrition. Evangelism and Verse Memorization. Educational support and provision of school supplies. This was made possible through the mobilization of local resources from small contributions from the local community.

More than 45 children of Muslim parents have accepted Jesus and some are witnessing to Him among their families. Parents, guardians and community leaders join the ministry, giving their small material and financial contributions and praying for the advancement of the ministry and the well-being of the children.
